# WINDOW SHADINGS

HORIZONTAL // VERTICAL

## WHY OUR WINDOW SHADINGS?

- Generous assortment of over 120 selections in 2", 2 ½" and 3" vane sizes
- Translucent and light-dimming fabrics in soft, sophisticated patterns and colors embellish a room with style and grace
- Fabric widths up to 120" cover extra wide windows and doors
- Fabric-covered headrail option provides a seamless, textured look from top to bottom
- Control options include standard continuous cord loop, retractable cord, and Remotelift 2.0 for convenient, customized operation

## WHY OUR VERTICAL SHADINGS?

- Light-dimming and translucent fabrics beautifully complement our Window Shadings, offering a coordinated look in the same room
- Ideal for covering large window expanses and sliding glass doors up to 192" wide and 120" in height
- Control options include a combination wand/cord or moving wand for operating convenience
- Limited Lifetime Warranty on both programs ensures customer satisfaction

## SOFT BEAUTY

Shadings blend the beauty and softness of a sheer with the function and convenience of a blind. Now that's sheer brilliance!

FEATURES	BENEFITS
<b>VANE SIZES</b>	
<b>2" Vane</b>	Ideal choice for narrow or smaller size windows.
<b>2 ½" Vane</b>	Versatile option that is suitable for most windows and offers the widest variety of styles.
<b>3" Vane</b>	Great option for larger windows and provides maximum view-through.
<b>VANE STYLES</b>	
<b>Translucent</b>	Vanes softly diffuse light, yet maintain privacy. Available in a myriad of soft styles and subtle patterns in welcoming neutrals and a palette of rich, deep tones.
<b>Light-Dimming</b>	Vanes dramatically reduce the light and provide complete privacy when closed. Choose from sophisticated styles in a spectrum of colors.
<b>CONTROL OPTIONS</b>	
<b>Continuous Cord Loop</b>	Standard. Lifts tall or heavy shadings with precision and ease. Cord loop remains the same length. Cord tensioner eliminates dangling cords.
<b>Retractable Cord</b>	Raises and lowers the shading and tilts the vanes for exact light and privacy control. The single pull cord remains the same length for enhanced child safety.
<b>RemoteLift 2.0</b>	Battery-operated motorized system raises and lowers shadings and tilts vanes with the touch of a button. Just right for hard-to-reach windows or for light and privacy control on command.
<b>DESIGN OPTIONS</b>	
<b>Fabric-Covered Headrail</b>	The headrail is wrapped with a coordinating fabric, providing a soft, textured appearance from top to bottom.
<b>2-on-1 Headrail</b>	Two independently operated shades are placed side-by-side on the same headrail and can cover expanses up to 144" wide. There will be a 3/8" light gap between the two shades.
<b>Tilt Only Shading</b>	Shading tilts open or closed but cannot be raised. Hold down brackets are used to secure the bottomrail. Ideal for sidelights or windows as narrow as 6" wide.
<b>HARDWARE AND INSTALLATION</b>	
<b>Installation Brackets</b>	Installation is quick and easy. Installers give our brackets a thumbs up!
<b>Magnetic Hold-Down Brackets</b>	Secure the bottom of the shading to prevent swaying. Standard on tilt-only shadings.
<b>Shading Adjustment</b>	A balance weight on the bottomrail allows for easy adjustment if the fabric winds unevenly on the roll when the window shading is raised.
<b>Back Cover (optional for inside mount)</b>	Conceals the open rear side of the headrail for a more pleasing exterior look.
<b>Dust Cover (optional for outside mount)</b>	Shields the fabric and internal headrail components from dirt and dust.

**LIMITED LIFETIME WARRANTY** on all Shadings by Alta ensures customer satisfaction.

## SHEER COORDINATION

Light-dimming and translucent fabrics beautifully complement our Window Shadings, offering a coordinated look in the same room.

FEATURES	BENEFITS
<b>VANE STYLES</b>	
<b>Translucent</b>	Vanes softly diffuse light, yet maintain privacy. Available in styles and colors that complement Window Shadings for a coordinated look.
<b>Light-Dimming</b>	Vanes dramatically reduce the light and provide complete privacy when closed.
<b>CONTROL OPTIONS</b>	
<b>Combination Wand/Cord</b>	Precise control of the wand tilts the vanes open or closed, along with a cord to draw the shadings across the window.
<b>Moving Wand</b>	Open and close the vanes with a simple twist, and pull to draw the shadings across the window. An ideal option for enhanced child safety. Available with outside mount, side stack only.
<b>HARDWARE AND INSTALLATION</b>	
<b>Durable Hardware System</b>	Sleek rail system, with proven reliability, ensures long-lasting ease of operation.
<b>Built-In Fabric Header</b>	Conceals the hardware and operating mechanism when the shading is closed.
